

## QUALITY POLICY

To ensure the sustainability and growth of **our company ROTO PROCESS INTERNATIONAL, whose mission is to manufacture rotational moulded polyethylene** articles in an environment characterised by fierce competition and an extremely demanding customers, we are convinced that quality is a major stake.

In this regard, maintaining a Quality Management System, which meets the requirements of **ISO 9001 Version 2015**, is a powerful way to achieve our strategic objectives, including:

- 1. Total satisfaction and loyalty of our customers and stakeholders.**
- 2. The total commitment of all RPI employees through constant participation in the continuous improvement of our QMS.**
- 3. Developing the professional skills, motivation and expertise of our staff.**

To ensure the effective operation of this system, the Management ensures that the processes are implemented and that the requirements of customers and interested parties are taken into account. Management is committed to providing all the human and material resources necessary to ensure the effectiveness of the QMS and a finished product that meets the required standards and satisfies customers to 100%.

It will ascertain, through management reviews, the relevance of the quality objectives to the context and strategic direction of RPI, and the effectiveness of the QMS.

**THE EXECUTIVE MANAGEMENT**
